1. From the Home Dashboard or the Expense Dashboard, click the **NEW EXPENSE REPORT** button. The Expense Entry Screen will appear

   a. The Expense Header section stores all the basic information that applies to every expense listed on the report.
      i. Expense Owner
      ii. Report Name
      iii. Pay Me In
      iv. Business Purpose
      v. Additional Details
      vi. Start and End Date
      vii. Do you have a University Pcard
2. For your first expense, click on the + button to show the menu options for adding expenses. There are three main options for adding expenses:
   a. Create New - create a cash out of pocket transaction
   b. Credit Card - Transactions are loaded daily and are available to apply to your expense report
   c. Off Line - emailed items, receipt images & HTML emails

CREATE NEW EXPENSES:
To add a direct expense, select the desired mosaic button. Buttons with arrows will display additional options. Once your selection has been made, complete the required fields. Once complete hit SAVE to add transaction.
CREDIT CARD TRANSACTIONS:
To select a credit card transaction, click on the box above the dollar amount. You can select multiple transactions at once. To add the credit card transaction(s) to your report, simply hit the plus icon in the top right of your screen.

OFFLINE TRANSACTIONS:
These are cash receipts sent in using “Snap & Send”, or HTML emails sent to receipt@chromefile.com. The transactions are treated as an out of pocket expense. Please see receipt section below for a detailed picture.

TRAVEL TRANSACTIONS:
Only add travel transactions if you have a matching credit card transaction or a receipt to match the out of pocket travel expense. If a receipt/credit card transaction do not auto merge (link together), you can manually merge the data together under the “ALL” section. It is recommended to sort ALL transactions by amount to quickly organize the transactions. To complete a merge, select the desired transactions. A blue merge button will appear. Hit the merge button to complete.

3. In the preview pane on the right side of the screen, you can see a summary of the expenses you have added and add notes, receipts and items to your expense report.

4. After the expenses have been added to the report, click SUBMIT if you are done or click CLOSE to be taken back to the Expense Dashboard.
