

Impedance Spectroscopy of Biomaterials

1. Time-Domain Dielectric Spectroscopy of Apples. F. X. Hart and W. P. Coleman. IEEE Trans. Elec. Insul. EI-24, 627-634 (1989).
2. The Dielectric Properties of Apples in the Range 0.1 to 100 KHZ. F. X. Hart and W. H. Cole. J. Matl. Sci. 28, 621-631 (1993).
3. In-Vivo Measurement of the Low-Frequency Dielectric Spectra of Frog Skeletal Muscle. F. X. Hart and W. R. Dunfee. Phys. Med. Biol. 38, 1099-1112 (1993).
4. The Dielectric Properties of Meat. B. Bodakian and F. X. Hart. IEEE Trans. Dielec.& Elec. Insul. 1, 181-187 (1994).
5. The Dielectric Spectra of Heated Potatoes. F. X. Hart and B. Bodakian. J. Matl. Sci. Lett. 14, 1214-1217 (1995).
6. The Low-Frequency Dielectric Properties of Octopus Arm Muscle Measured In-Vivo. F. X. Hart, R. B. Toll, N. J. Berner, and N. H. Bennett. Phys. Med. Biol. 41, 2043-2052 (1996).
7. Measurement of the Activation Enthalpies for Ionic Conduction in Apples. F. X. Hart, V. Schmidt, L. Ray and E. Shrum. J. Mat. Sci. 33, 3919-3925 (1998).
8. Modeling the Anisotropic Electrical Properties of Skeletal Muscle. F. X. Hart, N. J. Berner and R. L. McMillen. Phys. Med. Biol. 44, 413-421 (1999).
9. A Comparison of the Impedance Spectra of Frog Gastrocnemius, Octopus Arm and Crayfish Tail Muscles, Measured *In-Vivo*. F. X. Hart, U. Ismail and V. Schmidt. Proceedings XI International Conference on Electrical Bio-Impedance, Oslo, Norway, 17-21 June 2001. ICEBI; 321-4.

10. The Impedance Spectroscopy of Skeletal Muscle. F. X. Hart. Proceedings of the tenth Electrotechnical and Computer Science Conference ERK 2001, Portoroz, Slovenia, 24-26 September 2001. Slovenia Section IEEE; Ljubljana. Vol A, 13-16.

11. Time Domain Dielectric Spectroscopy of Crayfish Tail Muscle, Measured *In-Vivo*. F. X. Hart, U. Ismail and V. Schmidt. Journal of Non-Crystalline Solids, 305, 311-316 (2002).

12. Thermal Hysteresis of Bioelectrical Impedance in Frog Gastrocnemius Muscle, Measured *In-Vivo* . F. X. Hart, E. E. Davila-Moriel, N. J. Berner and R. L. McMillen. Journal of Non-Crystalline Solids, 351, 2929-2934 (2005).

13. Electric Properties of Tissues. D. Miklavcic, N. Pavselj and F. X. Hart. in "Wiley Encyclopedia of Biomedical Engineering", M. Akay, ed., Wiley, New York, Vol. 6, 3578-3589 (2006).

14. Impedance Spectroscopy of Newt Tails. F. X. Hart, J. H. Johnson and N. J. Berner; IFMBE Proceedings, 16 190-3 (2007).

15. Bioimpedance in the Clinic. F. X. Hart. Journal of the Slovenian Medical Association. 78, 782-90 (2009).

16. Using Impedance Spectroscopy to Monitor the Regeneration of Newt Tails. F. X. Hart, J. H. Johnson and N. J. Berner. Journal of Non-Crystalline Solids. 356, 725-29 (2010).

17. Characterization of the Mechanical Behavior of Human Skin by Means of Impedance Spectroscopy. N. Pavselj, M. Mitar, F. X. Hart, D. Miklavcic. Journal of Physics: Conference Series. 224, 012131-4 (2010).
