Assessment Worksheet
LO2: *Understanding the Arts: Creativity, Performance, and Interpretation*

The need to create, experience, and comprehend art is a defining human activity. Learning in the arts fosters aesthetic development, self-discipline, imaginative insights, and the ability to make connections between seemingly disparate ideas and issues. **Many courses will provide insight into the discipline, craft, and creative processes that go into making a work of art, while other will focus on analyzing and interpreting the products of that artistic creativity.** *Developing the ability to think in intuitive, non-verbal, aural, or visual realms enhances creativity, and provides students a way to address problems that do not have conventional solutions.*
